CHICHEN ITZA TOUR 2011

Chichén Itzá, recently nominated one of the new 7th wonders is the ancient city whose name means "in the mouth at the Itzáe's Well", was in its time of grandeur (between 800 and 1200 A.D.), the centre of political, religious and military power in Yucatán, if not all of South-eastern Meso America.

Chichén Itzá is located 125 miles West of Cancun about 2:15 hrs. It is the most visited archaeological site on the Peninsula, famed for its extraordinary architecture beauty. When the Spaniards arrived in Chichen Itza, it had been long been abandoned, a victim of the Mayapan wars. Somewhere between 1196 and 1441 the May culture collapsed on the northern shores of the peninsula. The conqueror found the buildings in ruins; their names and uses lost to time. Present names and uses are intelligent guesses.

During the spring and fall, equinox (March 21st. and September 22nd) the sun casts shadows on the steps that create the illusion of a snake slithering down the face of the pyramid.
